

Anekant Education Society's
Tuljaram Chaturchand College of Arts, Science and Commerce, Baramati
(Autonomous)
T.Y.B.Sc. Environmental Science Syllabus

Class	Semester	Paper Code	Paper Title	Credit
T.Y.B.Sc.	V	EVS 3501	Ecosystem Management	3
		EVS 3502	Wildlife Biology	3
		EVS 3503	Geoscience	3
		EVS 3504	Nature Conservation	3
		EVS 3505	Environmental Governance, Laws and Ethics	3
		EVS 3506	Environmental Biotechnology	3
		EVS 3507	Practical based on EVS3501 and EVS3502	2
		EVS 3508	Practical based on EVS3503 and EVS3504	2
		EVS 3509	Practical based on EVS3505 and EVS3506	2
	VI	EVS 3601	Climate Change	3
		EVS 3602	Analytical Methods	3
		EVS 3603	Sustainable Development	3
		EVS 3604	Environmental Statistics	3
		EVS 3605	Environmental Risk and Assessment Management	3
		EVS 3606	Environmental Economics And Audit	3
		EVS 3607	Practical based on EVS 3601 to EVS 3603	2
		EVS 3608	Practical based on EVS 3604 to EVS 3606	2
		EVS 3609	Project	2

\ **Academic Year 2020-2021**

Class : **T. Y. B. Sc. (Semester - V)**
Paper Code : **EVS 3501**
Paper : **I** Title of Paper : **Ecosystem Management**
Credit : **3** No. of lectures : 48

A) Learning Objectives:

- 1) To learn terrestrial ecosystem and its detailed classification.
- 2) To learn aquatic ecosystem and its distribution.
- 3) To make student aware about importance of aquatic and terrestrial ecosystem.

B) Learning Outcome:

- 1) Students understand terrestrial ecosystem and its resources.
- 2) Students understand aquatic ecosystem and their importance.

Credit-I (16L)

Unit-1-Terrestrial Ecosystem

Introduction, The Terrestrial Environment, The terrestrial biota and biogeographic regions, general structure of terrestrial communities. The soil subsystem, the vegetation subsystem, parameters of the terrestrial environment, hotspots in India. (8L)

Unit-2- Terrestrial Community

Distribution of major terrestrial communities, patterns, classification, ecotone and edge effect, keystone species and control of community structure, types of interactions: predation, parasitism, antibiosis, commensalism, cooperation, and mutualism.(8L)

Credit –II (16L)

Unit-1- Terrestrial Ecosystem Management

Methods of terrestrial ecosystem management: remote sensing, geographical information system, ethnobotany, non wood forest (From Wood and non-wood forest) community based forest management, traditional methods, Forest fire: reasons, effects, control measures and management Methods of vegetation sampling and data analysis: sampling approaches, quadrat methods, line and belt transect, the point frame method, vegetation classification, species association. (8L)

Unit-2-Aquatic Ecosystem

Introduction, Limnology, Aquatic environment, aquatic biota and water resources. water and plant functioning, structure of aquatic communities. The parameters of the aquatic environment. (8L)

Credit-III (16L)

Unit-1 Types of Aquatic Ecosystem

Distribution of major aquatic ecosystems, patterns, ecotone and edge effect, types of interactions: predation, parasitism, antibiosis, commensalism, cooperation, and mutualism. (6L)

Unit-2 Management of Aquatic Ecosystem

Methods of aquatic ecosystem management: remote sensing, geographical information system, Eco-development program, traditional methods, Methods of aquatic sampling and data analysis: sampling approaches, species association. (10L)

Academic Year 2020-2021

Class : **T. Y. B. Sc. (Semester - V)**
Paper Code : **EVS 3502**
Paper : **II** Title of Paper : **Wildlife Biology**
Credit : **3** No. of lectures : 48

A) Learning Objectives:

- 1) To learn wildlife resource or wildlife biology.
- 2) To learn major group of plant and animal species and their natural habitat.
- 3) To learn wildlife management techniques and biodiversity hotspot.

B) Learning Outcome:

- 1) Students get information about wildlife and their various species.
- 2) Students understanding diversity of wildlife and their scope.

Credit-I (16L)

Unit-1 Introduction

Introduction, Concept of Wildlife Biology, Definition of Wildlife, examples of protected wildlife species (Refer to Wildlife Protection Act). (8L)

Unit-2 Outline of Diversity of major groups

Diversity of major groups of plants and animals. Plants: Algae, Bryophytes, Pteridophytes, Gymnosperms, Angiosperms (Monocots and Dicots) Animals: Mollusca, Vertebrates- (Mammals, Birds, Fish, Reptiles, Amphibians), habitats of faunal species.

(8L)

Credit-II (16L)

Unit-1 Habitats of wildlife diversity

Wildlife Habitats Aquatic (Marine, Freshwater, Brackish) Terrestrial habitats (Vegetation types:- forest, grassland, arid zones, hot and cold deserts, agriculture, landscape patterns Examples of food chain in each type of habitat. (8L)

Unit-2 Threats of wildlife diversity

Threats to Wildlife Habitat destruction, developmental projects, urbanization, agricultural expansions, excessive harvesting and poaching, human- wildlife conflict, examples of excessive exploitation of plants and animals. (8L)

Credit-III (16L)

Unit-1 Wildlife Management Techniques

Wildlife Management Techniques: Population assessment techniques for flying insects, Birds and Mammals: Transects, Point Counts, net swipes, census from pug marks, camera trapping Diversity assessment for plants: Determination of sampling area, quadrates, transects, point centre method, Diversity Indices and its applications. UAV (Unmanned aerial vehicles), Remotely piloted aircraft. (8L)

Unit-2 Biodiversity

Reasons for biodiversity formation, contribution to adaptive evolution, land races of crop plants, conservation of genetic resources, highly productive and unique habitats, examples of wetlands and mangrove ecosystem. (8L)

Academic Year 2020-2021

Class : T. Y. B. Sc. (Semester - V)
Paper Code : EVS 3503
Paper : III Title of Paper : Geosciences'
Credit : 3 No. of lectures : 48

A) Learning Objectives:

- 1) To learn or study the geological study of earth.
- 2) To make student aware about conservation natural resources.
- 3) To learn origin of earth ,soil weathering.

B) Learning Outcome:

- 1) Students understood origin of earth and soil weathering process.
- 2) Students understood natural hazards and disaster.

Credit-I (16L)

Unit 1- Origin and evolution of earth.

Introduction,Primary geochemical differentiation and formation of core, mantle, crust, atmosphere and hydrosphere,Lithosphere. Concept of minerals and rocks. Formation of igneous and metamorphic rocks. Climates of India, western disturbances, Indian monsoon, droughts, El Nino, La Nina. Concept of residence time and rates of natural cycles. Geophysical fields.

(10L)

Unit 2- Soil Weathering

Definition, Classification, Weathering including weathering reactions, erosion, transportation and deposition of sediments. Soil forming minerals and process of soil formation, Identification and characterization of clay minerals, Soil physical and 5 chemical properties, soil types and climate control on soil formation, Cation exchange capacity and mineralogical controls. Factors affecting on soil erosion.

(10L)

Credit-II (16L)

Unit 1- Oceanography

Distribution of water in earth, hydrology and hydrogeology, major basins and groundwater provinces of India, Darcy's law, groundwater fluctuations, , groundwater tracers, land subsidence, effects of excessive use of groundwater, groundwater quality. Pollution of groundwater resources. Ocean basins and physical structure of the ocean floor. Properties of sea water, waves and tides, ocean Currents.

(10L)

Unit 2 - Conservation of Natural Resources

Introduction, Natural resource exploration and exploitation and related environmental concerns. Historical perspective and conservation of non-renewable resources. Methods of soil Conservation.

(9L)

Credit-III (16L)

Unit 1 - Natural Hazards and Disasters

Concept, Catastrophic geological hazards - floods, landslides, earthquakes, volcanism, avalanche, tsunami and cloud bursts. Prediction of hazards and mitigation of their impacts. Atmospheric disturbances: Thunderstorms, cyclones, lightening, and drought. Impact of anthropogenic activities such as urbanization, mining, river-valley projects, excess withdrawal of ground water, etc. (9L)

- 18) Physical geography by Mazid Husen.

Academic Year 2020-2021

Class : **T. Y. B. Sc. (Semester - V)**
Paper Code : **EVS 3504**
Paper : **IV** Title of Paper : Nature Conservation
Credit : **3** No. of lectures : 48

A) Learning Objectives:

- 1) To learn basic natural resources.
- 2) To learn methods for conservation of a nature.
- 3) To learn information about international efforts for conservation of nature.

B) Learning Outcome:

- 1) Students aware about nature conservation methods and their international efforts.
- 2) Students understood objectives and challenges of nature conservation.

Credit-I (16L)

Unit 1- Introduction

Concept of Nature Conservation; Convention on Biological Diversity (CBD), Protected Area Network (PAN) in India, Details of PAN in Maharashtra state. (8L)

Unit 2-Methods of Nature conservation

Methods: In situ-Concept, Principles, Protected area types (global and national level, Heritage sites), Examples, challenges, merits and limitations; Ex situ-Concept, Principles, Types (captive breeding and reintroductions, seed banks, gene banks), examples, challenges, merits and limitations; Traditional/community conservation-Concept, examples, challenges, merits and limitations, Roll of (NBA) National Biodiversity Authority(Roll and structure),State biodiversity board.

(8L)

Credit-II (16L)

Unit 1 Awareness about Conservation

Awareness about Conservation: Need, Importance, Methods, Examples National Initiatives for Nature Conservation Ecotourism: Objectives, Principles, Merits, Disadvantages, Limitations, Challenges, Examples. (8L)

Unit-2 International efforts for Conservation

International efforts for Conservation: Role of IUCN, WWF and other Prominant organizations, Role of Governments, International Conventions and Protocols .Role of NGOs, Green Peace, International Whaling Mission, BNHS, Reindeers, Tigers, Crocodile farms, Examples of extreme activism, and practical sustainable efforts. (8L)

Credit-III

Unit 1- Wildlife Law and Administration

Wildlife Law and Administration: Wildlife Protection Act, its merits and limitations .State Symbols (Animals and Plants) ,Administrative Setup: MoEF, Climate Change Central and State Pollution Control Boards, Interface between administration and NGO's. Personalities, Institutions, Groups & NGO working for environmental conservation.

(8L)

Unit 2- Nature Conservation Challenges

Objectives of Nature Conservation, Challenges (Social, Political, Economical) (8L)

- 18) (2003). Oxford and IBH Publishing, New Delhi.

Academic Year 2020-2021

Class	:	T. Y. B. Sc. (Semester - V)
Paper Code	:	EVS 3505
Paper : V		Title of Paper : Environmental Governance, Laws and Ethics
Credit : 3		No. of lectures : 48

A) Learning Objectives:

- 1) To learn environmental governance, Laws and ethics.
- 2) To learn international conferences and summit for the protection and conservation of environment.
- 3) To learn Environmental ethics.

B) Learning Outcome:

- 1) Students understood the Acts and laws related to Environment protection.
- 2) Students aware about the fundamental duties and rights and also environmental ethics.

Credit-I (16L)

Unit-1 Environmental Governance

Introduction, Need and necessity, Elements of environmental governance Environmental governance in India since 1972. Environmental protection and Fundamental Rights.

(8L)

Unit-2 Environmental International Conference

Stockholm conference, The Earth Summit 1992 – The Rio declaration on environment and development, the Earth Summit agreements. India's International Obligations, Public interest litigation.

(8L)

Credit-II (16L)

Unit-1 Environmental Act

The Water (Prevention and Control of Pollution) Act – 1974

The Air (Prevention and Control of Pollution) Act – 1981

The public liability Insurance Act, 1991

The National Environmental Tribunal Act,

1995 Environmental Policy Resolution.

Legislation, public Policy Strategies in Pollution Control. Motor Vehicle Act, 1988.

Public Liability Insurance Act, 1991 and Rules 1991.

(8L)

Unit-2 Environmental Conservation Act

The Biological Diversity Act, 2002 Forest Conservation Act, 1980.

Indian Forests Act (Revised) 1982. National Forest Policy.

The Environment (Protection) Act, 1986

Scheme of labelling of environmentally friendly products (Ecomark) .

(8L)

Credit-III (16L)

Unit-1 Environmental Ethics

Environmental Ethics: Introduction, concept. Development of environmental ethics, ethical theories applied to the environment. Environmental ethics in spirituality, fundamental concerns, relationship between people and environment. (8L)

Unit-2 Ethical Challenges

The ethical dilemma, environmental ethics and population, pollution. Value options, environment and technology. Human life and its environment – The art of ethics and an ethical dilemma, Challenges of world environmental ethics. (8L)

Reference:-

- 2) Computerized aided environmental management – SA Abbassi and FI Khan.
- 3) Environmental Governance: The Global Challenge; By Lamont C. Hempel; Island Press (1996)
- 4) Environmental Issues in India – A Reader; By Mahesh Rangrajan; Pearson-Longman Publ. (2007)
- 5) Handbook of Environmental Law, Acts, Guidelines, Compliances, and Standards: Vol. I and II; by R.K. Trivedy; BS publ (2004).
- 6) International Environmental Law, Fairness, Effectiveness and World Order; by Elli Louka, Cambridge, (2006)
- 7) Global Environmental Governance: A Reform Agenda; by Adil Najam, Mihaela Papa, and Nadaa Taiyab (2006), International Institute for Sustainable Development (IISD), Canada
- 8) Environmental Governance and Regulation in India: by *Atiyah Curmally*; (Environment and Rehabilitation) India Infrastructure Report 2002

Academic Year 2020-2021

Class	:	T. Y. B. Sc. (Semester - V)
Paper Code	:	EVS 3506
Paper : VI		Title of Paper : Environmental Biotechnology
Credit : 3		No. of lectures : 48

A) Learning Objectives:

- 1) To learn composting , vermicomposting and biofuels.
- 2) To learn Genetically modified organisms and their release criteria.
- 3) To learn bioremediation and energy production process.

B) Learning Outcome:

- 1) Students understood composting, vermicomposting and biofuel.
- 2) Students understanding biotechnology and its used to control the environmental pollution.

Credit-I (16L)

Unit-1 Introduction

Environmental Biotechnology: Meaning, necessity and scope, history of environmental biotechnology, objectives of environmental biotechnology. (8L)

Unit-2 Vermicomposting and Biofuels

Composting, Vermicomposting and Biofuels—Composting technology, Design aspect, composting process, Temp. Trend I and influencing factors, Vermicomposting—Earthworm life cycle, chemical characteristic of vermicompost, Operating vermicompost, Biofuels—Alternative to non fossil energy resources, Biological energy resources, Combustion of biomass, Biogas, Biodiesel, Ethanol and hydrogen. (8L)

Credit-II (16L)

Unit-1 GMO's in the environment

GMO's in the environment—Risk of GMO's, Risk assessment management (Need and Importance), Directive principles for GMO's. Measures, Deliberate release, and release criteria. Biosafety—Cartagena Protocol, Biosafety regulation.

(8L)

Unit-2 Bioremediation

Bioremediation—Principles, factors responsible, microbial population for bioremediation, Environmental variation in field, Enzymatic – biodegradative pathway, Genetic Engineering Approach, Bioremediation strategies; Phytoremediation—Metal and Organic Phytoremediation, need for Research and development. (8L)

Credit-III (16L)

Unit-1 Biomethanation

Biomethanation—Anaerobic treatment for gas generation, microbiology and biochemistry, factors affecting, Problems in Biomethanation, Design of digester, Biomethanation in industries, Potential of Biomethanation from MSW, Merits of Biomethanation from MSW and Biomass gasification, Medical and hospital Waste.

(8L)

Unit-2 Energy Production

Energy production from biomass - biogas, ethanol, hydrogen Biotechnology application of bioleaching.

(8L)

Class: **T. Y. B. Sc. Practical-I (Based on Semester – V Theory Papers)**
Paper Code: **EVS 3507**

Title of Paper: **Practical based on Sem-V EVS 3501 And EVS 3502**

Credit: 2 No. of Practicals : 12

A) Learning Objectives:

- 1 To aware the students about ecosystem management.
- 2 To enhance the knowledge of students about the environmental science.
- 3 To aware the students about environmental laws and ethics.

B) Learning Outcome:

- 1 It will help to conserve the wildlife biology.
- 2 Students will get job in GIS mapping and remote sensing.
- 3 Data analyzer will be expert to conclude the significance of biological experiments.

Practical based on EVS 3501-Ecosystem Management

1. Study of Flora of an urban terrestrial ecosystem/herbarium (Field practical)...2P
2. Study of primary productivity from grassland community....1P
3. Study of species interaction from forest area....1P
4. Study of vegetation by Belt/Line method....1P
5. Webseries study of invasive species in agricultural ecosystem...1P

Practical based on EVS 3502-Wildlife biology

6. Study of Fauna of an urban terrestrial ecosystem(Field practical)...1P
7. Quantitative analysis of phytoplanktons and determination of percent composition lockey's drop count method....1P
8. To calculate Shannon, Simpson, Sorenson's coefficient index....2P

Class: **T. Y. B. Sc. Practical-II (Based on Semester – V Theory Papers)**
Paper Code: **EVS 3508**

Title of Paper: **Practical based on Sem-V EVS 3503 to EVS 3504**

Credit: 2 No. of Practicals: 10

A) Learning Objectives:

- 1 To aware the students about ecosystem management.
- 2 To enhance the knowledge of students about the environmental science.
- 3 To aware the students about environmental laws and ethics.

B) Learning Outcome:

- 1 It will help to conserve the wildlife biology.
- 2 Students will get job in GIS mapping and remote sensing.
- 3 Data analyzer will be expert to conclude the significance of biological experiments.

Practical based on EVS 3503-Geoscience

1. Exercise based on the lapse rate ..1P
2. Draw the simple wind roses with the help of given data....1P
3. Draw the Compound wind roses with the help of given data....P
4. Draw the climatic maps and diagram of climograph /circular graph....2P

Practical based on EVS 3504-Nature Conservation

5. To study methods of preparation of compost by using Indore and Bangalore method...1P
6. To study vermicomposting of farm/other solid waste...2P
7. To Study factors influencing on composting...1P
8. Continuation of use of social media for e-networking and dissemination of ideas of nature conservation...1P

Class: **T. Y. B. Sc. Practical-III (Based on Semester – V Theory Papers)**
Paper Code: **EVS 3509**

Title of Paper: **Practical based on Sem-V EVS 3505 to EVS 3506**

Credit: 2 No. of Practicals: 10

A) Learning Objectives:

- 1 To aware the students about ecosystem management.
- 2 To enhance the knowledge of students about the environmental science.
- 3 To aware the students about environmental laws and ethics.

B) Learning Outcome:

- 1 It will help to conserve the wildlife biology.
- 2 Students will get job in GIS mapping and remote sensing.
- 3 Data analyzer will be expert to conclude the significance of biological experiments.

Practical based on EVS 3505-Environmental Governance, Laws and Ethics.

1. Introduction of Environmental Governance, Laws and Ethics...1P
2. Understanding process of public interest litigation through court...1P
3. Legal survey based on questionnaire to understand environmental governance...2P
4. Introduction about Central Pollution Control Board (CPCB) ..1P

Practical based on EVS 3506-Environmental Biotechnology

5. To isolate microorganisms from decaying matter/soil...2P
 6. Identification and classification of bacteria...1P
 7. Determination of H₂S from sewage sample...1P
 8. Identification and classification of bacteria by gram staining technique...1P
- Visit to Biodiversity rich area / Sewage treatment plant and submit the report.
