of Arts, Science & Commerce Baramati  
(Autonomous)

### **Environmental Policy**

#### Environment and Sustainability :

1. The college is obliged to protect the environment through the prevention of pollution and waste, and through the sustainable development, and maintenance and improvement of the natural and environment.
2. The college should formulate its policies complying with all relevant environmental legislation, standards, agreements, policies and procedures demarcated by the central, state governments.
3. Practical steps should be shown in developing and implement research and teaching initiatives related to sustainability.
4. Objectives and targets should be established for improving our environmental performance in the areas of: energy consumption, greenhouse gas emissions, potable water consumption, waste to landfill, sustainable transport, and biodiversity.
5. The college is committed to implementing, maintaining and continually improving environmental management processes to reduce its environmental footprint. Ecological consciousness rising from notions of sustainability is embedded in the basic ethical outlook of the institution.
6. The college should take steps to harness solar power.
7. The campus has to be made plastic free to a possible extent. Abiding by the principle of green protocol, the institution insists on the use of cloth items replacing plastic made ones.
8. Every year (once in each semester) college will observe 'No Vehicle Day' in order to promote as massage of environment.
9. Do not encourage unnecessary printing of documents and other material
10. The college is committed to maximise sustainable resource use and minimize the use of hazardous substances.
11. Maximum use of LET bulbs and tube lights.

- 
12. Maintain botanical garden by introducing and enhancing various species of plants in the botanical garden.
  13. The college should attempt to become a paper free one by promoting electronic platforms for academic and administrative purposes.
  14. Organize e-waste campaign with recycling agencies.
  15. Special measures should be taken to protect and improve biodiversity of the campus.
  16. The college should design programmes to foster the quality of the environment and protection of the biodiversity throughout the region.
  17. Reservoirs for rain water harvesting should be constructed in the campus.
