About The Anekant Education Society:

Anekant Education Society was established in 1961. The Jain philosophy 'Siddhiranekantat' is the motto and "Anekantwad' is the preamble of the society and the college. The society started Baramati College, Baramati in the month of June 1962, later named Tuljaram Chaturchand College of Arts, Science and Commerce. Now, it has more than 10,000 students and almost 320 faculty members. The society also runs another degree college named Jaysingpur College, Jaysingpur, Dist.-Kolhapur. Moreover, the society added a few more feathers to its cap by starting Anekant Institute of Management Studies (AIMS) as well as Anekant English Medium School at Baramati

About The College:

Tuljaram Chaturchand College of Arts, Science and Commerce, Baramati, Pune is one of the leading and prestigious colleges in Maharashtra established in 1962. Our motto, 'We for Student' is at the heart of everything we do at the college. Keeping pace with modern trends in higher education, the college has full-fledged UG courses in Arts, Science and Commerce along with PG courses almost in all subjects of different streams as well as Ph. D. Research centers.

The College has been re-accredited for the fourth cycle with 'A++' grade (CGPA 3.51) by NAAC, Bangalore in 2025. It has been awarded the status of 'College with Potential for Excellence' by UGC, and has been selected for STAR College scheme by DBT & DST-FIST scheme by DST, New Delhi. The college has received several awards from Savitribai Phule Pune University, Pune including Best College Award, Best Principal Award, Best Student Welfare Officer Award, Best NSS Coordinator Award, Best NSS Unit Award, Best NSS volunteer award and also the recipient of awards from the Maharashtra Government. UGC, New Delhi has conferred the Autonomous status to the college from December 2018 to December 2029.

About the Workshop:

Artificial Intelligence (AI) is a branch of computer science that enables machines to simulate human intelligence such as thinking, learning, reasoning, and problem-solving. Machine Learning (ML) is a subset of AI that allows systems to learn from data and improve their performance without being explicitly programmed.

AI focuses on creating intelligent systems, while ML specifically uses algorithms and statistical models to learn patterns from data. Examples include chatbots, recommendation systems, image recognition, and self-driving cars.

Scope and Area:

To familiarize faculty participants with emerging concepts, tools and applications of Artificial Intelligence and Machine Learning across academics, research, and industry.

Objective:

To enhance participants understanding and practical skills in AI and ML for teaching, research innovation, and real-world problem solving.
