COMMERCE, BARAMATI (Autonomous)**

Subject: Defence and Strategic Studies

Class: FYBA, 2022 Pattern

Course Outcomes

Semester I

Paper Code: UADS111(A)

Paper Title: Defence Mechanism of India

- 1) Students will be able to define and understand the concept of national security in the context of India.
- 2) Students will be able to recognize the importance of a comprehensive approach to national security.
- 3) Student has knowledge on various Defence forces and their function.
- 4) Examine the historical context of India's defence mechanisms, including key events and milestones.
- 5) Students will be able to understand how historical factors shape contemporary defence policies and functioning of different defence institutions.
- 6) Study the structure and organization of the Indian armed forces, including the Army, Navy, Air Force, and other defence agencies.
- 7) Analyse the roles and responsibilities of each branch of the military.
- 8) Student will be able understand the decision-making process over the security issues in India.
- 9) Student will be able to analyse the defence operations performed by India from the point of view of armed forces.
- 10) Student will get to know future job opportunities and how join the paramilitary and armed forces.

Semester II

Paper Code- UADS121(A)

Paper Title: Defence Mechanism of India

- 1) Conduct advanced strategic analysis of India's geopolitical environment, identifying emerging threats and opportunities.
- 2) Apply strategic thinking to assess the evolving nature of global and regional security and analyse the challenges and opportunities in the process of military modernization.
- 3) Examine the involvement of the military in disaster response and relief operations.
- 4) Analyse the coordination between civil and military authorities during emergencies.
- 5) Examine India's maritime security policies and the role of the Indian Navy.
- 6) Analyse challenges and opportunities related to maritime security.
- 7) Explore the challenges and strategies related to border security, including territorial disputes and cross-border threats.

- 8) Analyse the role of the military in safeguarding territorial integrity.
- 9) Student will be able understand structure and organization of the Indian armed forces, including the Army, Navy, Air Force, and other defence agencies.
- 10) Understand the dynamics of civil-military relations in India.
- 11) Analyse the role of the military in a democratic society and the importance of civilian oversight.

Semester I

Paper Code: UADS111(B)

Paper Title: Key Concepts of National Security

- 1) Define the concept of national security and understand its multidimensional nature.
- 2) Recognize the evolving definition and scope of national security in contemporary contexts.
- 3) Explore various theories related to national security and analyze how different theoretical perspectives shape national security policies.
- 3) Students will get through knowledge of India's internal and external security environment.
- 4) Students will be able to understand various key concept of national security.
- 5) Examine the organizational structures and institutions within the government responsible for national security.
- 6) Analyze the roles and functions of key national security agencies.
- 7) Understand the historical and contemporary roles of the military in ensuring national security.
- 8) Analyze the relationship between civilian leadership and the military in national security decision-making.

Semester II

Paper Code: UADS121(B)

Paper Title: Key Concepts of National Security

- 1) Students will be able to understand various conventional and non-conventional threats.
- 2) Student will be able to understand power rivalry in Indian Ocean region.
- 3) Student will be able to understand presence of superpowers in Indian Ocean and its impact over India's security environment.
- 4) Conduct advanced threat analyses, considering emerging and evolving threats to national security.
- 5) Apply sophisticated methodologies for evaluating the severity and likelihood of potential threats.
- 6) Analyze advanced global security dynamics, including geopolitical shifts, alliances, and regional security challenges.
- 7) Understand the impact of global events on a nation's security posture.
- 8) Explore the concept of human security and its relationship with national security.
- 9) Analyze policies and strategies that prioritize the well-being and safety of individuals.
- 10) Analyze advanced aspects of civil-military integration in national security planning and execution.

Anekant Education Society's
TULJARAM CHATURCHAND COLLEGE OF ARTS, SCIENCE AND
COMMERCE, BARAMATI (Autonomous)
Subject: Defence and Strategic Studies
Class: SYBA, 2022 Pattern
Course Outcomes

Semester I

Paper Code: UADS231A

Paper Title: Military Geography

- 1) Students will be able to understand the relation between national power and distribution and use of natural resources.
- 2) Students will be able to understand geo strategy, grand strategy, strategy, and tactics.
- 3) Students will be able to understand the relation between geography and war.
- 4) Students will get knowledge about the strategies to be used in warfare in different terrains.
- 5) Students will get critical analyzing skills regarding how geographical factors influence strategy, tactics, and military operations.
- 6) Studying the role of geography in military logistics, including supply chain management, transportation, and infrastructure considerations.
- 7) Students will be able to understand how terrain and climate impact the movement of troops and supplies.
- 8) Developing skills in strategic planning and military decision-making based on geographic considerations.
- 9) Evaluating the importance of geographic factors in determining military objectives and goals.

Semester II

Paper Code: UADS241A

Paper Title: Military Geography

- 1) Analyzing how physical geography (terrain, climate, topography) influences military operations.
- 2) Examining the impact of human geography (population distribution, cultural factors) on military strategies.
- 3) Applying geographic concepts to analyze conflicts and understand their spatial dimensions.
- 4) Investigating the role of borders, boundaries, and territorial disputes in military conflicts.
- 5) Exploring the use of remote sensing technologies for military intelligence and surveillance.

- 6) Understanding how satellite imagery and other remote sensing tools contribute to military reconnaissance.
- 7) Students will be able to understand the relation between national power and distribution and use of natural resources.
- 8) Students will get critical analyzing skills regarding how geographical factors influence strategy, tactics, and military operations.

Semester I

Paper Code: UADS231B

Paper Title: Geopolitics

- 1) Students will be able to understand various geopolitical theories.
- 2) Student will be able understand geopolitical importance of Indian Ocean.
- 3) Students will be able to understand complex relations between countries from a geographical perspective.
- 4) Students will get knowledge about the crucial role of geopolitics in a nation's foreign policy.
- 5) Students will get critical analyzing skill regarding how geographical factors influence international politics.
- 6) Understand and define the concept of geopolitics, exploring its historical evolution and theoretical foundations.
- 7) Examine the distribution of power among states and non-state actors in the international system.
- 8) Understand the dynamics of power shifts and their impact on global politics.
- 9) Explore various geopolitical theories, including classical, critical, and strategic perspectives.

Semester II

Paper Code: UADS241B

Paper Title: Geopolitics

- 1) Investigate the role of military power and security concerns in shaping geopolitical strategies.
- 2) Analyze conflicts, alliances, and security challenges from a geopolitical perspective.
- 3) Explore diplomatic strategies and conflict resolution mechanisms in geopolitics.
- 4) Understand the role of international institutions and negotiations in managing geopolitical tensions.
- 5) Analyze the structures and mechanisms of global governance, including international organizations and treaties.
- 6) Understand the challenges and opportunities of multilateral cooperation.

7) Students will be able to understand complex relations between countries from a geographical perspective.

8) Students will get knowledge about the crucial role of geopolitics in a nation's foreign policy.

9) Students will get critical analyzing skill regarding how geographical factors influence international politics.

Semester I

Paper Code: UADS232

Paper Title: International Relations

1) Acquire a solid understanding of the key concepts, theories, and approaches within the field of International Relations.

2) Develop a historical context for understanding the evolution of international relations.

3) Describe the dominant theoretical approaches to international relations.

4) Use their knowledge of the dominant theoretical approaches to international relations to interpret the behavior of international actors.

5) Select methods of analysis appropriate to research in the student's chosen concentration and apply at least one of these methods to a understand question in international relations.

6) Integrate multiple disciplinary approaches to the study of international relations.

7) Explore the various dimensions of international security, including military conflicts, terrorism, and non-traditional security threats.

8) Understand the role of diplomacy and international cooperation in maintaining global security.

9) Explore the concept of human rights in international relations.

10) Analyze global justice issues and the role of international institutions in promoting human rights.

Semester II

Paper Code: UADS242

Paper Title: International Relations

1) Develop an understanding of diplomatic practices, negotiation strategies, and conflict resolution mechanisms.

2) Analyze case studies of successful and unsuccessful diplomatic efforts.

3) Examine the intersection of international relations and environmental issues.

4) Understand global efforts to address climate change and promote sustainable development.

5) Describe the dominant theoretical approaches to international relations.

- 6) Use their knowledge of the dominant theoretical approaches to international relations to interpret the behavior of international actors.
- 7) Select methods of analysis appropriate to research in the student's chosen concentration and apply at least one of these methods to a understand question in international relations.
- 8) Integrate multiple disciplinary approaches to the study of international relations.
- 9) Examine the impact of globalization on states, societies, and economies.
- 10) Understand how technological advancements and increased interconnectedness shape international relations.

Semester I

Paper Code: UADS233

Paper Title: India's Internal Security

- 1) Define and understand the concept of internal security, with a specific focus on India.
- 2) Recognize the distinction between internal and external security threats.
- 3) Identify and analyze various internal security threats faced by India, including terrorism, insurgency, communal tensions, and organized crime.
- 4) Understand the historical context and evolution of these threats.
- 5) Students will get knowledge about India's internal security environment.
- 6) Student will be able to explain India's internal security threats and reasons behind the same.
- 7) Evaluating critical thinking and its outcome for developing eradication to India's various internal security challenges
- 8) Student will be able to explain the concept of terrorism, Naxalism, Insurgency, Disaster Management, and its impact over internal security of India.
- 9) Student will be able understand the various issues from security point of view like organized crimes Illegal migration, drugs and human trafficking, Money laundering and arms trafficking.

Semester II

Paper Code: UADS243

Paper Title: India's Internal Security

- 1) Students will get knowledge about India's internal security environment.
- 2) Student will be able to explain India's internal security threats and reasons behind the same.
- 3) Evaluating critical thinking and its outcome for developing eradication to India's various internal security challenges
- 4) Student will be able to explain the concept of terrorism, Naxalism, Insurgency, Disaster Management, and its impact over internal security of India.

- 5) Student will be able understand the various issues from security point of view like organized crimes Illegal migration, drugs and human trafficking, Money laundering and arms trafficking.
- 6) Understand the roles and responsibilities of different security forces involved in maintaining internal security, such as the police, paramilitary, and intelligence agencies.
- 7) Analyze the coordination mechanisms among various security agencies.
- 8) Explore specific cases of insurgency and Naxalite movements in India.
- 9) Understand the root causes, dynamics, and government responses to these challenges.
- 10) Examine issues related to border security, including border disputes, infiltration, and cross-border terrorism.
- 11) Analyze the strategies employed to secure India's borders.
