**Abstract**

The entrepreneurial nature of commercial enterprise includes a positive impact on the event of rural areas through creation of commercial enterprise infrastructure and diversification of connected and supporting industries. The article presents the results of associate offline survey of the population of the Western geographic region. The study confirms the hypothesis that the event of agricultural commercial enterprise in Western geographic region geographical area may be a strategic vector that reduces the share of migration of the agricultural population, includes a stimulating result on rural infrastructure, and it additionally contributes to creation of accessorial price, the employment of innovations, diversification of commercial enterprise product, it acts as a form of sponsor of the actual fact that the most profit can stay within the native economy, which, in turn, can have a helpful result on the socio-economic development of rural areas. the event of agricultural commercial enterprise can contribute to the revival of people crafts, culture and identity, the preservation, effective use and development of the potential of the country, the answer of socio-economic issues, overcoming the economic, social and religious crisis of rural municipalities. Integration of agriculture and commercial enterprise can absolutely have an effect on the fight of rural areas, the well-being of rural residents and therefore the strengthening of the country's agriculture as a full

**Keywords:** - Agri Tourism, Economic Contribution, Social and Culture Contribution

**Introduction:-**

Agriculture is taken into account to be the backbone of the Indian economy. Around 85% of the population is directly or indirectly addicted to agriculture and allied activities and nearly 26% of India's gross domestic product comes from agriculture. 90 million farmers are domicile in zero.625 million villages manufacturing over 20 Metric Tonnes of food grains feeding the country. over a profession or a business, agriculture is deeply frozen within the Indian culture. Farmer's are currently glowing to do newer ways aloof from the typified and orthodox patterns to make relations with the shoppers directly and earn further. Hence, adding on to the agricultural financial gain with some touristic activities is transfer in new hopes and higher lives. Serious efforts ar currently being created during this direction and Agri tourism is one such activity that matches the bill. Agri tourism as a thought isn't terribly new though its reach is proscribed to just some places. Agri tourism with its baby steps conjointly the amulet of analysis will positively bring changes within the lifetime of farmers and shoppers shall also reap the advantages of it.

Maharashtra has 328 agri tourism centers across twenty nine districts as well as Pune, Aurangabad, villages close to Nagpur, and therefore the social group belt of Thane district. Since its beginning, farmers across the State have gained a twenty fifth growth in their incomes. These agri tourism centres recorded four.7 lakhs, 5.3 lakhs, 7.9 lakhs tourists visit in 2018, 2019, and 2020 severally, that helped the farmers to come up with accumulative revenue/income of Rs fifty five.79 crore. Besides, the agri-tourism initiative helped produce over one hundred thousand jobs for ladies and youth within the rural areas. many instances within the districts like Raigad, Pune, and Satara have tested that agri tourism completely Economic, Social and Cultural contribution in development of local resident of whole village from a special perspective.

**Agri tourism Definition**

Agri tourism commercial enterprise will be outlined as a kind of industrial enterprise that links agricultural production and/or process with commercial enterprise to draw in guests onto a farm, ranch, or different agricultural business for the needs of fun and/or educating the guests whereas

generating financial gain, Agri tourism commercial enterprise might be thought of because the crossroads of commercial enterprise and agriculture. it's a non-urban cordial reception product, serving associate degree rural mode, culture associate degree heritage with an abundance of natural resources. Agri tourism commercial enterprise has gained traction within the commercial enterprise business.

**Significance of study:**

However, the importance of the rural tourism for rural development is not only measured in terms of money, but also by creation of new jobs which add vitality to a traditionally poor economy. Well-developed and focused rural tourism can become a new source of money and jobs and at the same time it can eliminate social isolation and be an important factor in resettling the country. The present study focused on the various impact on Rural studies with respect to Socio and cultural, Economical, Environmental and other areas

However, the importance of the agro tourism for rural development is not only measured in terms of money, but also by creation of new jobs which add vitality to a traditionally poor economy. Well-developed and focused agro tourism can help to generating additional revenue for local businesses , increasing protection of rural landscapes and natural environments, helping preserve and revitalize local traditions, art and craft, new source of money and jobs and at the same time it can eliminate social isolation and be an important factor in resettling the country. The present study focused on the contribution of agro tourism to Economic, Socio and cultural development of rural area of western Maharashtra.

**Research objectives**

1. To understand the economic contribution of agri tourism.
2. To understand the socio – Cultural contribution of agri tourism.

**Demographic profile of Local Resident**  
**Gender**

<b>Gender</b>	<b>Frequency</b>	<b>Percentage</b>
Male	272	68%
Female	128	32%
Total	400	100%

Source: - Primary Data

Table 1 states that, 68% of respondents were males and 32% of them were females. Majority of the local people covered in this study are males.

**Age Groups**

<b>Age</b>	<b>Frequency</b>	<b>Percentage</b>
Below 30	81	20.2%
31 to 45	214	53.5%
46 to 60	97	24.2%
More than 60	8	2%
Total	400	100%

Source: - Primary Data

It is clear from table 2 that, 20.2% of the respondents belong to an age group of below 30, 53.5% of them, between 31 to 45, 24.2% of the respondents between 46 to 60 and 2% of them come under an age group above 60. Hence majority of the respondents belong to an age group between 31 to 45.

**Occupation**

<b>Occupation</b>	<b>Frequency</b>	<b>Percentage</b>
Farming and allied activities	113	28.5%
Govt. services	61	15.2%
Private services	75	18.7%
Self-employed/Business man	92	23%
Student/Researcher	6	1.5%
Any other	53	13.2%
Total	400	100%

Source: Primary Data

As far as the occupation is concerned, table 3 shows that, 28.5% of the respondents are employed in Farming and allied activities, 15.2% of them in Government sector and 18.7 % of them in private sectors, 23% of them are Self-employed/Business men, Therefore it can be concluded that majority of the respondents in this study are engaged in farming and allied activities followed by self-employed/business men and private service employees.

**Educational qualification**

<b>Educational qualification</b>	<b>Frequency</b>	<b>Percentage</b>
Literate	34	8.5%
Below metric	74	18.5%
Metric	98	24.5%
Higher secondary	64	16%
Graduate	46	11.5%
Master degree and above	74	18.5%
Total	400	100%

Source: Primary Data

Table 4 indicates that 8.5% of the respondents under study are literate people. 18.5 % of the respondents have an educational qualification below metric. 24.5% of them have qualified metric level. 16% of them have qualified higher secondary level. 11.5% of them are graduates and 18.5% of

them are post-graduates. So, it can be concluded from the aforesaid information that majority of the local people under study have metric level qualification followed by post-graduates

• **Economic development of local Resident**

<b>Question</b>	<b>Strongly Disagree (1)</b>	<b>Disagree (2)</b>	<b>Neutral (3)</b>	<b>Agree (4)</b>	<b>Strongly agree (5)</b>

• **Challenges to the Agri Tourism**

1. High cost of land development and initial investment,
2. Lack of awareness among people about the agro-tourism concept.
3. Poor infrastructure facilities like drinking water facilities, electricity, good telecommunication, safety and security, transportation facilities, medical facilities etc.
4. Marketing agro-tourism as a product effectively and consistently.
5. Inability to introduce more activities and lack of specific policy for promotion of agri tourism.
6. Lack of Proper communication skill of farmers.
7. Lack of organized effort like Farmer organizations
8. Complexity in getting license from Govt.
9. Danger of over exploitation of natural resources.
10. Insufficient Financial Support from government and Bank
11. Legislation Problem.
12. Due to seasonal condition.
13. Lack of Trained Human Resource.
14. Poor hygiene and basic require-ments considering urban visitors

**Conclusion :**

Agri tourism offers a unique chance to integrate components of the tourism and agricultural sectors to give travelers, farmers, and communities with a variety of financial, educational, and social benefits. Agri-tourism provides producers with an extra source of income as well as a channel for

direct marketing to consumers. It boosts the tourist business by boosting the number of visitors and the length of their stay in a certain location. Agri-tourism has the ability to improve local tax bases and create new job possibilities for communities. Agri-tourism also gives public educational opportunities, aids in the preservation of agricultural areas, and allows states to build corporate businesses. Agri tourism offers visitors ‘rural experiences,’ with the purpose of providing a source of income for farmers and communities in the surrounding area. The introduction and marketing of community-based agri tourism goods would be beneficial to the industry’s inclusive growth.
