Subject: Letter of Intent for organization of certificate course on "Biofertilizer Technology: Gateway to Entrepreneurship"

Reference: Our visit to your institute on 21/09/2022 and meeting with Hon. Principal and Head department of Microbiology Dr. Sunil Pawar.

Dear Sir,

We are the leading manufacturer of Bio-fertilizers in Maharashtra; our company is located at Pune and managed by technically qualified personnel.

This certificate course will be of immense help to the students of your college in enriching their knowledge in this domain and will also inculcate the awareness about newer agricultural and biotechnological business ideas. It will also expose them to the industry culture and can help them in choosing their career in industries.

Considering the logistic and financial limitations of many students in attending the certificate course at factory site in Pune, we have decided to organize this certificate course at the college level. This will enable maximum number of students to attend it and take the benefits.

The certificate course fee is kept at Rs. 60,000 per batch for 3 days online and 2 days offline (Hands-on) for the students with the considerations that the college authorities will contribute for the stay arrangements of two resource persons.

Green Vitals Biotech, Pune will bring the fermentor, Bottle filling machine and required accessories for this certificate course.

The detailed brochure of this workshop is attached herewith for your kind perusal.

You are requested to arrange this certificate course at your Microbiology / Biotechnology / Biology departments.

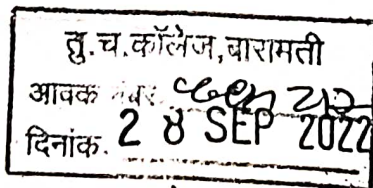

Furthermore, it is to bring to your notice, that the skill enhancement of the student is the basic ingredient of NEP and will offer added advantage in NAAC accreditation of the college.

We are looking forward for your positive and favourable response in this regard.

Thank You.

Sincerely yours,

Mr. Amey M. Ranjekar

Report on "Skilled Based Workshop on Bioinoculant Production"

Student Level Workshop

We have organized five days workshops entitle "Skilled Based Workshop on Bioinoculant Production" from 12th to 18th October-2022 (Online-Offline Hybrid Mode)

This workshop was organized by Department of Microbiology, Tuljaram Chaturchand College under ED - RUSA.

The objective of the workshop was to impart hands on training on the skills associated with commerial bioinoculant production using lab scale fermentor . To exploit the microbial diversity in various agro-ecologies for bioinoculant application in diversified systems

Participants were M.Sc-II students from Department of Microbiology. Total 35 participants were benefited by this workshop.

As an outcome of this workshop participants have gained knowledge with respect to operation of fermeter and large scale producation of bioinoculant. Overall the workshop was very thought provoking and useful for students to improve their knowledge and skillles on bioinoculant production

We appreciate that you have given your valuable time and conducted such an informative workshop on "Skilled Based Workshop on Bioinoculant Production" under ED, RUSA

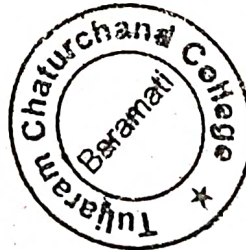

We would like to sincerely thank you for the efforts you have shown in transforming the knowledge to students of our college during 12th to 18th October 2022 (Online - Offline mode)

It's always been our pleasure to have you with us and we look forward to seeing you again for the upcoming events.

Once again, thanking you on the behalf of the college administration and staff.

Yours faithfully
