APICULTURE WORKSHOP 2021-22
Department of Zoology 26th February 2022

Beekeeping is an ancient practice that involves the management of bee colonies, primarily for honey production. Bees play a vital role in our ecosystem as pollinators, contributing to the growth of growth of plants and the production of food. The department of Zoology under Entrepreneurship Development (ED) Cell organized a one-day workshop on *Apiculture for Beginners* on 26th February 2022 in Hargobind Khorana Laboratory. The workshop aimed to guide the students about techniques of beekeeping, building up of bee hives as well as proper methods of maintenance of bee colonies and extracting honey for commercial purpose. The workshop was attended by 78 students. Hands-on training was given by Mr. Bipin Jagtap, Deputy CEO Maharashtra Khadi & Village Industries Board, Mumbai, Mr. Alpesh Wagh and Mr. Prashant Gawade from KVK, Baramati.

Introduction - Most of the people are afraid of honey bees, and why not? These tiny stingers make us cry when they sting but did you know these little four-winged creatures are a blessing of nature and produce the best of sweet things called 'honey'. The World Bee Day is celebrated every year on May 20 to raise awareness about the significance of honey bees.

There was a time when farmers were not allowing any beekeeper to start bee colonies close to their land, but now from last few years, farmers are personally contacting beekeeper to establish a bee colony near their crop. Farmers also provide land to the beekeeper to arrange their bee colony when flowers are about to blossom in the crops. The honey bees have great scope because of its bee products like honey, wax, royal jelly etc. and indirect benefits of crop yield increases by cross pollination.

Most of the our students are from rural area & they have the agriculture background.
